

## Release notes WDCAP version 3.0.2 dated 23-8-2018

At 23-8-2018 a new WDCAP version is installed with the following changes:

### WDC200 - Child details

**Child details**

Send message to donor   Transfer child to other school   Child Leaving   Print documents   **Progress report**   Greetings   Change status

---

|                  |                                                          |               |                                            |                                                                                |
|------------------|----------------------------------------------------------|---------------|--------------------------------------------|--------------------------------------------------------------------------------|
| Child number     | <input type="text" value="76153079"/>                    | First name    | <input type="text" value="Siaka of Omar"/> | <input checked="" type="radio"/> Boy <input type="radio"/> Girl                |
| Donor            | <input type="text" value="1 : Woord en Daad"/>           | Family name   | <input type="text" value="SANOU"/>         | Family details                                                                 |
| Group sponsoring | <input type="checkbox"/>                                 | Date of birth | <input type="text" value="31/12/2003"/>    | <input type="checkbox"/> Estimated                                             |
| Status           | <input type="text" value="6 : too old for new sponsor"/> | Age           | <input type="text" value="14"/>            | <input checked="" type="radio"/> Dayschooler <input type="radio"/> Residential |

---

|                  |                                                         |              |                                                |                 |
|------------------|---------------------------------------------------------|--------------|------------------------------------------------|-----------------|
| School           | <input type="text" value="153 : 153 BARAKA Secondary"/> | Class        | <input type="text" value="Lower Secondary 1"/> | School history  |
| Specialization   | <input type="text"/>                                    | Section      | <input type="text"/>                           |                 |
| In project since | <input type="text" value="23/11/2010"/>                 | Date leaving | <input type="text"/>                           | Leaving details |

If the class is changed on the child details screen the program will ask the related new schoolyear.

Enter which schoolyear is connected to the new class.

School Year

There is also a test added that the link "Progress report" is invisible if the status of the child is 99 (history)

### WDC201 - New Child

**New Child**

School

Education only

---

|                  |                                                 |               |                      |                                                                                |
|------------------|-------------------------------------------------|---------------|----------------------|--------------------------------------------------------------------------------|
| Child number     | <input type="text"/>                            | First name    | <input type="text"/> | <input checked="" type="radio"/> Boy <input type="radio"/> Girl                |
| Donor            | <input type="text" value="- Select a Donor -"/> | Date of birth | <input type="text"/> | <input type="checkbox"/> Estimated                                             |
| Group sponsoring | <input type="checkbox"/>                        | Age           | <input type="text"/> | <input checked="" type="radio"/> Dayschooler <input type="radio"/> Residential |

The program will give a warning message if the combination Date of birth – First name already exists and will display a list with the children that have the same Date of birth – First name with 2 options: "1 = Add new child anyway / 2 = Cancel (duplicate child)"

### Family details

| Father           |                                                                 | Mother                                                          |          | Housing                                 |  |
|------------------|-----------------------------------------------------------------|-----------------------------------------------------------------|----------|-----------------------------------------|--|
| Name             | <input type="text" value="Oumar"/>                              | <input type="text" value="Diallo Fatimata"/>                    | Type     | <input type="text" value="Clay house"/> |  |
| Occupation       | <input type="text" value="Farmer"/>                             | <input type="text" value="House wife"/>                         | Street   | <input type="text" value="-"/>          |  |
| Income           | <input type="text" value="0"/> <input type="text" value="XOF"/> | <input type="text" value="0"/> <input type="text" value="XOF"/> | Village  | <input type="text" value="Sarfalao"/>   |  |
| Period of income | <input type="text" value="None"/>                               | <input type="text" value="None"/>                               | Province | <input type="text" value="Houet"/>      |  |
| Religion         | <input type="text" value="Moslim"/>                             | <input type="text" value="Moslim"/>                             |          | <input type="text" value=""/>           |  |
| Date of birth    | <input type="text" value=""/>                                   | <input type="text" value=""/>                                   |          | <input type="text" value=""/>           |  |

Another problem solved that changes in the father and mother of an education only child were not saved in the database.

## New family

|             |                       |                       |
|-------------|-----------------------|-----------------------|
| Family name |                       |                       |
|             |                       |                       |
|             |                       |                       |
| Father      |                       | Mother                |
| Name        |                       |                       |
| Occupation  | - Select Occupation - | - Select Occupation - |

## School history

| Child Number | Date Entry | User Id | School Name                    | Class Name        | Remarks | Schoolyear | Start School Year | End School Year |
|--------------|------------|---------|--------------------------------|-------------------|---------|------------|-------------------|-----------------|
| 76153079     | 02/05/2018 | JAN     | 153 BARAKA Secondary School    | Lower Secondary 1 |         | 2017-2018  | 01-07-2017        | 30-06-2018      |
| 76153079     | 02/05/2018 | JAN     | 153 BARAKA Secondary School    | Primary 6         |         | 2016-2017  | 01-07-2016        | 30-06-2017      |
| 76153079     | 02/05/2018 | JAN     | 153 BARAKA Secondary School    | Primary 5         |         | 2015-2016  | 01-07-2015        | 30-06-2016      |
| 76126770     | 11/07/2013 |         | 126 PRIMARY SCHOOL BARAKA BOBO | Primary 1         |         |            |                   |                 |

The column start date is replaced by date entry and the user who entered the change is added. There is also a test added that if continuation code 3 (Dropout) is selected that the date of the dropout must be entered.

## WDC220A - School History Detail

### School History detail

|                            |                                                          |                |                                                          |  |
|----------------------------|----------------------------------------------------------|----------------|----------------------------------------------------------|--|
| Child Name                 | Siaka of Omar SANOU                                      |                |                                                          |  |
| Child number               | <input type="text" value="76153079"/>                    | Class          | <input type="text" value="Lower Secondary 1"/>           |  |
| School                     | <input type="text" value="153 BARAKA Secondary School"/> | Specialization | <input type="text" value="- Select a Specialization -"/> |  |
| Section                    | <input type="text" value="- Select a Section -"/>        | Continuation   | <input type="text" value="- Select -"/>                  |  |
| Schoolyear                 | <input type="text" value="2017-2018"/>                   | Date dropout   | <input type="text" value=""/>                            |  |
| Reason Dropout             | <input type="text" value="- Select -"/>                  | Date Start     | <input type="text" value="02-05-2018"/>                  |  |
| Continuation after dropout | <input type="text" value="- Select -"/>                  |                |                                                          |  |

Problem solved that if on the School history detail screen the school was changed that also the child number was changed.

If a new school history line is added the initial value of the school will now be the current school but can be changed.

## WDC263 - Transfer Child to Other School

### Transfer Child to Other School

|                                                       |                                             |                                                   |                               |                                                    |  |
|-------------------------------------------------------|---------------------------------------------|---------------------------------------------------|-------------------------------|----------------------------------------------------|--|
| Child Number                                          | 76153079                                    |                                                   |                               |                                                    |  |
| Child Name                                            | Siaka of Omar SANOU                         |                                                   |                               |                                                    |  |
| <b>Current School</b>                                 |                                             |                                                   |                               |                                                    |  |
| 153: 153 BARAKA Secondary School 6: Lower Secondary 1 |                                             |                                                   |                               |                                                    |  |
| <b>New School</b>                                     |                                             |                                                   |                               |                                                    |  |
| <input type="text" value="-Select School-"/>          | <input type="text" value="-Select Class-"/> | <input type="text" value="- Select a Section -"/> | <input type="text" value=""/> | <input type="text" value="- Select Schoolyear -"/> |  |
| New Child Number                                      | <input type="text" value=""/>               |                                                   |                               |                                                    |  |

New field "Schoolyear" added to select the schoolyear of the new school/class.

Also a test added that transfers of children with status 20 (Education only) will not be added to worklist 5 (transfers)

## WDC264 - Child Leaving

## Child leaves the School

Child

76153079

Siaka of Omar SANOU

### Current School

153: 153 BARAKA Secondary School 6: Lower Secondary 1

Date leaving

23-8-2018

Code leaving

- Select Code Leaving -

Test added that leavings of children with status 20 (Education only) will not be added to worklist 6 (leavings)

Also the problem solved that sometimes a leaving form was sent to W&D while this leaving form was already sent automatically after handling worklist 19 (22 + handling) with code 145.

## WDC501/ WDC502 - Greetings

### 2. Greetings By Selection

☒ Greeting ☐ Introduction Contact ☐ Translation Required

| Date       | Child Number | Partner |                         | Greeting                            | Intro Contact            | Transl Req               |
|------------|--------------|---------|-------------------------|-------------------------------------|--------------------------|--------------------------|
| 23/08/2018 | 76106807     |         |                         | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 23/08/2018 | 76106806     |         |                         | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 23/08/2018 | 76106804     |         | Abdoul Razack Ouedraogo | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 23/08/2018 | 76106803     |         | Samuel Couliadiaty      | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

Problem solved that sometimes the greetings were added multiple times to the worklist.

## WDC505 - New School Year

### 5. New School Year

Date

23/08/2018

School

- Select School -

Class

-

Section

-

Specialization

-

Current Schoolyear

2016-2017 , 2016-07-01, 2016-07-01

New Schoolyear

2017-2018 , 2017-07-01, 2017-07-01

Program extended to enter the current schoolyear and the new schoolyear to avoid issues with the new schoolyear.

## WDC657 - Progress Report 2018 Style

The resolution of the google maps picture is increased for better quality of the progress report.

## WDC721 - School Detail

### School Details

|               |                                              |
|---------------|----------------------------------------------|
| School Number | <input type="text"/>                         |
| School Name   | <input type="text"/>                         |
| Country       | <input type="text" value="BF:Burkina Faso"/> |
| Donor         | <input type="text" value="Woord en Daad"/>   |

Test added that new schools can only be entered with school numbers between 100 and 998

## WDC723 - Schoolyear Details

### Schoolyear Details

|                                 |                                                                                                                             |
|---------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Schoolyear                      | <input type="text" value="2017-2018"/>                                                                                      |
| Starting date of the schoolyear | <input type="text" value="01-07-2017"/>  |
| Last date of the schoolyear     | <input type="text" value="30-06-2018"/>  |

If the starting date or last date of the schoolyear are modified the related children will also be automatically updated.

## WDC760 - User Maintenance

Now the list with users in an organization will also contain the users where already an end date in the future is entered. These users were not displayed in the old version if "Include history" was not checked.
